Next Meeting January 12, 2011 at Yankee Truck 24 Hall Street, Concord, NH

NEXT MEETING — Roger Smith, Northeast Regional Manager of ONSPOT Automatic Tire Chains will give a presentation on their product at Yankee Trucks, Inc.

Onspot Automatic Tire Chains offers the traction of a single set of conventional snow chains at the flip of a dashboard switch, without having to stop the vehicle. For over 25 years we have been supplying traction at the flip of a switch for those out in snow and ice. Shift on the fly traction in forward and reverse. For the training, Justin and I will discuss how to correctly use, maintain and service the systems for long term satisfaction and value. After a quick video, we will have a unit available to show wear points and parts that should be serviced at regular intervals. After the discussion we will open the floor for questions and answers.
